1. **Highlighted** courses represent the core curriculum and should be taken in sequence and not skipped.
2. The non-highlighted courses may be taken any quarter as they are not part of the scaffolded learning sequence and are offered every quarter.
3. HLED 370 and HLED 475 are also offered during the summer and may be taken prior to officially starting the program.
4. BIOL 232 & BIOL 233 are prerequisites for declaring the program. Please contact the program director if you are ready to start the core curriculum but have not yet completed these prerequisites.
