PR = Prerequisite Requirements

More and more schools and organizations are seeking and/or requiring their coaches to be certified. Numerous state high school associations, including the Washington interscholastic Activities Association (WIAA), currently use ASEP Professional Coaches Education Program Bronze Level courses in qualifying high school coaches. Each year, more than 25,000 coaches across the country are credentialed through Bronze Level ASEP courses that are embedded within this minor.

Course credits in the minor can be applied toward meeting the State's clock hour requirements for school coaches (1 quarter hour credit = 10 clock hours). In the State of Washington high school coaches must have completed 30 clock hours before the beginning of the third year in any of five standards categories (medical aspects, legal aspects, psychological/social foundations, coaching techniques, philosophy of sports, and management/pedagogy). Middle Level coaches must complete a coaching effectiveness training class equivalent to the ASEP Coaching Principles class before the beginning of their third year.
