

COSTUMES FOR KIDS

Eastern Washington University's Student Occupational Therapy Association is partnering with Shriner's Hospital to sponsor a mobility device Halloween costume project.

EWU students design and create costumes for the kids that incorporate their mobility device. This year, the kids will show off their custom costumes at the River Park Square mall on October 30th.

Contact Amy Shadd (ashadd@ewu.edu) to donate materials or funding for this community event. Material costs are estimated to be ~\$500 and include PVC pipe, poster board, paints and general craft supplies .
