

ONE FOCUS

COLLEGE OF HEALTH SCIENCE AND PUBLIC HEALTH

The college serves the underserved through education. We are educating the next generation of health care providers in our region. The majority of our graduates stay in the Spokane area to work in hospitals, clinics, provider offices and schools—serving our community.

- + **Dental Hygiene Clinic** provides care to more than 2,000 underserved people each year.
- + **Health Services Administration with Long Term Care Option** is the only such program accredited in the western U.S.
- + EWU has established a **wheelchair basketball team** that is a member of the National Wheelchair Basketball Association along with 11 other universities.
- + **Doctor of Physical Therapy (DPT)** students provide a free weekly medical clinic at Union Gospel Mission, allowing this underserved patient population to get the care they need.
- + **Bachelor of Science in Health Science** provides working professionals a chance to advance their careers by studying public health, clinical education and health care management—fully online.
- + University Speech and Hearing Clinic includes students from **EWU's Communication Sciences and Disorders program**. More than 2,200 adults and children visit the clinic annually.
- + Master's in Public Health program's **Grand Rounds** is a partnership with state and local health agencies to present public health forums to discuss key health issues and solutions.

Only **BS degree** in
Dental Hygiene
offered in the state

Home to several
nationally-accredited
undergraduate and
graduate programs
and their respected
faculty

**200 health care
professionals graduate**
annually (more
than 140 in direct
clinical roles)
