STEP 1

Type the call to action that your button will say then highlight it.

## STEP 2

### Click on EWU Button

This will add the html that activates the button.

if you do not want them to show.

Visual Text

EWU Button

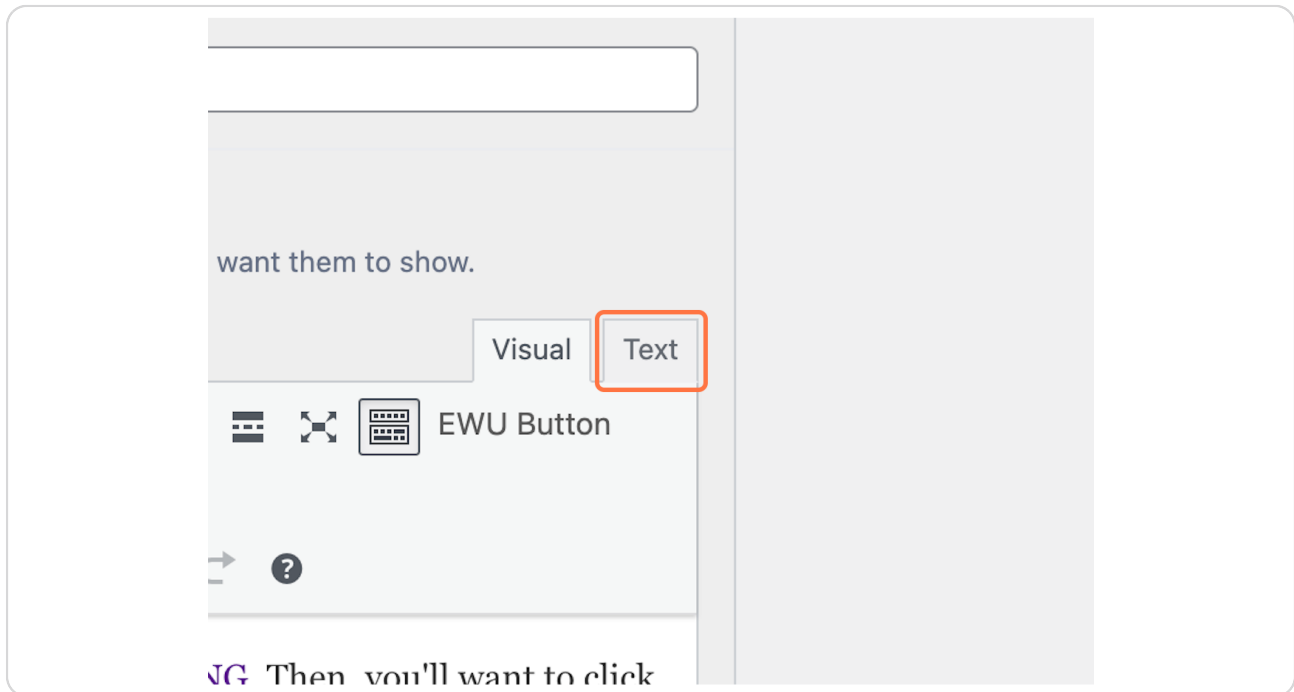

?) to [TinyPNG](#). Then, you'll want to click **images** when following the steps.

The image shows a rich text editor interface. At the top, there is a text area containing the sentence "if you do not want them to show." Below this, there are two tabs: "Visual" and "Text". The "Visual" tab is active, and it contains a toolbar with several icons. The "EWU Button" icon, which is a small button with a grid pattern, is highlighted with a red rectangular border. Below the toolbar, there are four more icons: a list icon, a undo icon, a redo icon, and a help icon. Below the editor, there is a paragraph of text that reads: "?) to [TinyPNG](#). Then, you'll want to click **images** when following the steps."

### STEP 3

#### Click on "Text" view

1. You will need to know where you want your button to link to.
2. Click text to view the HTML editor.

## STEP 4

### Locate the html for the button

1. Find `<a class="btn" href="LINK GOES HERE">Add a button</a>`
2. Paste your link between the ""

The screenshot shows the WordPress editor interface. On the left is a dark sidebar with various menu items. The main content area is titled "How can I add images or PDFs?". Below the title is a "Notes" section with a rich text editor. The editor is in "Text" mode, and the HTML code for a button is highlighted with a red border. The code is as follows:

```
<a class="btn" href="https://docs.google.com/document/d/1KdyOKMYuIvT04s9jyhXSNM-vDEtAk0uj4oNntj288Q/edit">Add a button</a>
<div id="tango-capture-box" style="--tango-capture-box-background-color: transparent; --tango-capture-box-color: #FF7442; display: none !important; transform: translate3d(10px, 16px, 0px); width: 607px; height: 48px; opacity: 1;"></div>
```

Below the code, there is a checkbox labeled "Include Border" which is currently checked.
